Overview of Career Development Theories. Career Development is a “continuous lifelong process of developmental experiences that focuses on seeking, obtaining and processing information about self, occupational and educational alternatives, life styles and role options” (Hansen, 1976). Put another way, career development is the process through which people come to understand them as they relate to the world of work and their role in it.

Overview of Career Development Theories

Applying Career Development Theory to Counseling. Richard Sharf goes beyond simply presenting theory to show the reader how to apply the principles in a counseling setting, making this book useful for both practicing counselors and counselors-in-training. Sharf covers three major theoretical areas (trait and type, life-span, and special-focus theories) in Parts I-III, then discusses theoretical integration in Part IV, with each theory providing a unique perspective on career development.
