### An Ozobot Makers

An Ozobot is a tiny robot that reads color code. If implementing coding in your classroom makes you a bit uneasy, don't worry! Ozobots are a perfect way to introduce your students to coding in a simple way. Ozobots have a sensor beneath them that reads color codes, or the different combinations of c

### An Ozobot Makers

A small, simple, programmable robot like Ozobot? I am looking for an alternative to the relatively cheap Ozobot. I was wondering if there was anything like it that had some way of wirelessly communicating with it, and preferably could be programmed in a real programming language.
