CPARS Quick Guide | FAI.GOV
and Overview CPARS is a role and web-based system that allows individual contracts and/or task orders to be registered into the system, assigned to Assessing Official (AO), shared with the contractor who is the subject of a given Contractor Performance Assessment Report (CPAR), and then disputed and reconciled with a Reviewing Official (RO).

Table 1 – CPARS Roles and Responsibilities
Government officials use multiple sources of information when making award decisions. Agencies are instructed to use the Contractor Performance Assessment Reporting System (CPARS) to create and measure the quality and timely reporting of performance information. FAR 42.1503 (4) (d) deems all past performance data as Source Selection Sensitive; information is not releasable unless directed by the agency who submitted the data.

Contractor Performance Assessment Reporting System
CPARS is a web-enabled application that collects and manages the library of automated Contractor Performance Assessment Reports (CPARs). A CPAR assesses a contractor's performance and provides a record, both positive and negative, on a given contractor during a specific period of time. Each assessment is based on objective facts and supported by program and contract management data, such as cost performance reports, customer comments, quality reviews, technical interchange meetings ...

User Manual for
Depression is a salient emotional feature of chronic pain. Depression alters the pain threshold and impairs functional recovery. To date, however, there has been limited understanding of synaptic or circuit mechanisms that regulate depression in the pain state. Here, we demonstrate that depression-like behaviors are induced in a rat model of chronic neuropathic pain. Using this model, we show ...
