Designing the smart organization : how breakthrough ...

BCG's Smart Design approach involves three main steps—the why, what, and how (see Exhibit 2): Define the purpose of the reorganization (the why). Determine the behaviors that will support that purpose and design the organization in such a way as to promote those behaviors, using a broad range of design elements (the what).

A New Approach to Organization Design

Strong organization design relies on holistic design and alignment of four major design elements to shape target behaviors. When it comes to reorganizing, companies have little room for error. The following six factors are critical to flipping the odds of success in a reorganization: Synchronize design with strategy.
