Environmental Impact Assessment Methodologies 2nd Edition

Whatever methods are chosen, the focus of impact assessment has evolved from generating a list of potential impacts on selected environmental components. Today's methods consider the environment to be a dynamic, integrated group of natural and social systems. Impacts occur over time and space. Some impacts are immediate while others are delayed.

ANNEX 5 ENVIRONMENTAL IMPACT ASSESSMENT METHODOLOGY

Environmental assessment (EA) is the assessment of the environmental consequences (positive negative) of a plan, policy, program, or actual projects prior to the decision to move forward with the proposed action. In this context, the term "environmental impact assessment" (EIA) is usually used when applied to actual projects by individuals or companies and the term "strategic environmental ...
