PAPER CUP CHICK

Materials

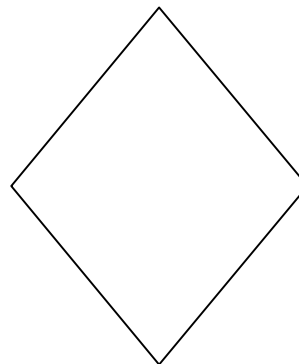

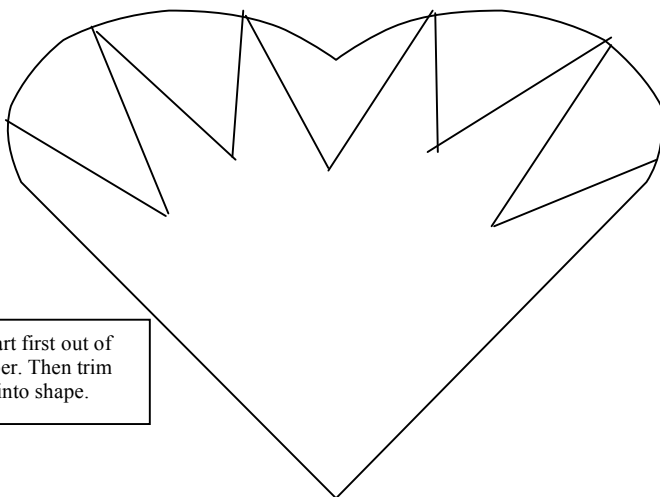

- yellow paper cup
- scissors
- white glue
- google eyes
- orange, yellow construction paper

Yes, this is a preschool project that can be enjoyed by elementary school aged kids too! This is a great first cutting project since the kids practice the hand motion of opening and closing

optional: pink construction paper, feathers, green pipe cleaner

INSTRUCTIONS

1. Cut yellow construction paper into strips about two inches wide. Have your child cut a fringe on one side of the construction paper (to represent feathers).
2. With the cup upside down, glue on the strips of fringe yellow to the cup
3. Out of yellow construction paper - Cut an oval or circle for the face. (You can trace the bottom of the cup or free draw an oval)
4. Cut an oval for the wings - now cut that oval in half to create a pair of wings
5. Cut a small orange triangle for the beak
6. Cut an orange heart for the feet. Now cut little triangles to make the "toes"
7. Glue on all your pieces to your chick and let dry overnight.

Cut the heart first out of orange paper. Then trim the "toes" into shape.
