The New Wave (in French, La Nouvelle Vague) is a film movement that rose to popularity in the late 1950s in Paris, France. The movement aimed to give directors full creative control over their work, allowing them to eschew overwrought narrative in favor of improvisational, existential storytelling.

Transverse Wave - What happens if you tie a rope to a door handle and shake the rope up and down? You have made a mechanical wave called a transverse wave. A transverse wave makes the particles in matter move back and forth at right angles to the direction that the wave is traveling. The points

where the wave is highest are called crests.
