Proving the Pythagorean Theorem In the “Proving Triangles Similar” assignment, you were asked to explain how we know that the three triangles in this diagram are similar. In this assignment, you will use the three similar triangles in the diagram to prove that the Pythagorean Theorem works for all triangles. You will no longer have to take the word of others, you will prove it for yourself.

The area of study known as the history of mathematics is primarily an investigation into the origin of discoveries in mathematics and, to a lesser extent, an investigation into the mathematical methods and notation of the past. Before the modern age and the worldwide spread of knowledge, written examples of new mathematical developments have come to light only in a few locales.
