## Visual Basic Objective Type Questions And Answers

The foreach statement of the C# language (for each in Visual C++, For Each in Visual Basic) requires the type of each element in the collection. Since each element of the IDictionary is a key/value pair, the element type is not the type of the key or the type of the value.

## Object as Key in Dictionary

I tried this idea first with my desired Custom Botswana result, no difference. Then to eliminate all other variables I tried a minimum Basic install with the objective of getting the data service in first. This means I had the minimum, fresh Windows 10 Pro and the minimum fresh SQL Server 2017 express. This still failed as you can see.
